

Exercise-1

1.d) “Hello world” in C

```
#include<stdio.h>

int main()
{
    printf("Hello World");
    return 0;
}
```

O/P

Hello World

1.e) Objective: Learn about the syntax of reading from stdin and writing to stdout. Write a simple program to read int, float, char and string using scanf() and display using printf() in all the above given platforms.

```
#include <stdio.h>

int main()
{
    int num;
    float f;
    char ch;
    char str[100];
    // Reading input
```

```
scanf("%d", &num);
scanf("%f", &f);
scanf(" %c", &ch); // space before %c to avoid newline
issue
scanf("%s", str);

// Printing output
printf("Integer: %d\n", num);
printf("Float: %.2f\n", f);
printf("Character: %c\n", ch);
printf("String: %s\n", str);

return 0;
}
```

O/P

80

67.9

R

ramya

Integer: 80

Float: 67.90

Character: R

String: ramya
